

We have you covered, always and everywhere

With local pharma experts around the world we support you wherever your business is located.

About Körber Pharma Packaging AG

For over 40 years, we have been developing innovative top-load and sideload systems by Dividella Solutions for complete secondary packaging lines of parenterals for the pharmaceutical and biotech industries. Technological creativity and the pursuit of modular, sustainable solutions have been part of our DNA from the very beginning. Our mono-material solutions lead the industry and offer our customers particularly low total cost of ownership, cold chain-optimised pack sizes and first-class ease of use. Our solutions are dedicated to vials, ampoules, syringes, pens and combination products.

Delivering the difference in pharma

At the Körber Business Area Pharma, we deliver the difference along the entire pharmaceutical value chain by offering a unique portfolio of integrated solutions. Based on in-depth experience spanning consulting, inspection, transport systems, packaging machines and materials, track and trace and software, we understand the challenges in pharmaceutical processes and regulation that our customers face day to day, from the beginning to the end of their production. For them, we deliver the difference to unlock the potential of global pharmaceutical and biotech manufacturing.
